Thriving Communities Partnership

2020 Partnership benefits

Connect, Capability Change

Thriving Communities Partnership

Together, we create change

Thriving Communities Partnership is a cross-sector collaboration with the goal that everybody has fair access to the modern essential services they need to thrive in contemporary Australia, including utilities, financial services, telecommunications and transport.

We work together to create deeper awareness and connections across communities, organisations and government by building collaborative networks and platforms for collective learning and action.

Anyone and everyone experiences vulnerability over their lifetime. The challenge is not to 'fix' people, rather to unite and shape a system around what works better for people.

We aim to create a fair and connected system, so that everyone in Australia can achieve an adequate standard of living, and live free from discrimination.

Partner Benefits

Connect

Build deeper connections, networks and platforms for collaboration, collective learning and action

1. Meaningful connections
Connect with other TCP partner organisations from across sectors through introductions, events and our 'Humans of TCP' online directory.

2. Collaboration platform
Gain unlimited access to the TCP online Knowledge Centre that includes over 150 partner policies, research and reports, along with our online discussion forums.

3. Leadership and brand recognition
Lead and contribute to discussions through TCP hosted events plus brand recognition on TCP communication channels such as website, social media and publications.

Capability

Build our collective understanding of vulnerability and increase our collective capability to better support all people across Australia

4. Cross sector insights
Support the essential and active participation of our community partners, ambassadors and people with lived experience to enable diverse and equitable strategic learning.

5. Events*
Learn and collaborate through TCP hosted events such as webinars, masterclasses, workshops and leadership forums.

6. Collaborative research
Contribute into, lead and learn from TCP's collaborative research agenda.

7. Strategic advice*
Develop your strategic partnering plan with the TCP secretariat to explore how your organisation's aspirations align with the TCP mission and plan your participation into the TCP ecosystem.

Change

Establish platforms and initiatives for place-based and national collaboration for impact

8. Collaborative initiatives*
Participate in, lead and learn through our collaborative projects, studios and Don't Just Think Tanks. Unite with partners and people with lived experience to build a connected and inclusive ecosystem together.

9. Monitoring, evaulation and learning
Participate in collective learning, evaluation and reflection to support the development and emergence of a new way of working and thinking.

10. Place based collaboration*
Build local collaboaration and focus on local issues and impact through TCP chapters, based in in QLD, NSW, SA and South West Victoria.

11. Social impact
Contribute to ecosystemic change by implementing policies, practices and initiatives that align with the TCP Charter and result in tangible improvements for people at risk of, or experiencing vulnerability.

12. Value added advisory services
Access member discounts on TCP's project management and consultancy work.

Engagement, Learning and Collaboration Opportunities

HUMANS OF TCP
It's always nice to know you can call someone you trust and ask them a question or for some advice. Connect in with, and become one of, the Humans of TCP with our (soon to be launched) online directory.
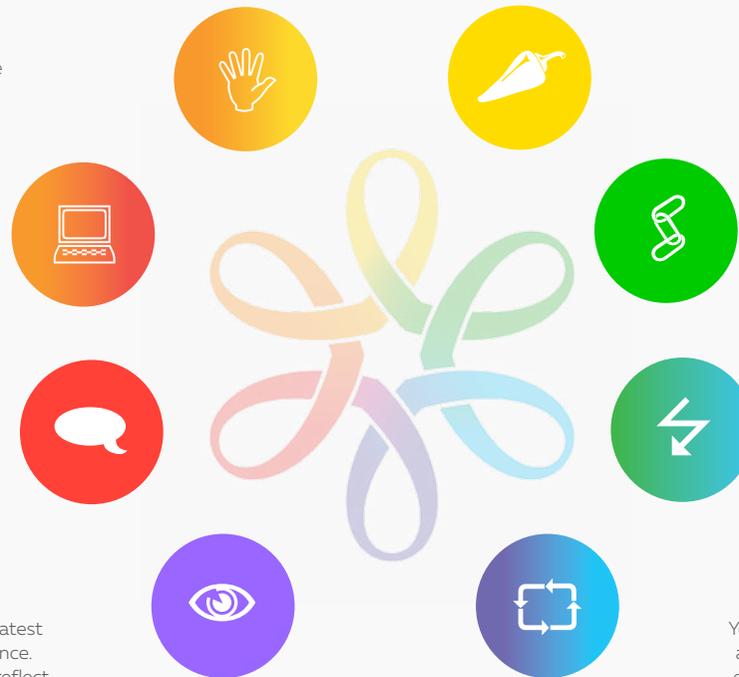

THE KNOWLEDGE CENTRE
Don't feel like you need to start from scratch when developing policies and processes. Explore, build on and contribute to the collection of better practice policies, case studies and research on topics relating to vulnerability, inclusion and systems change.

TCP CONNECT WEBINARS
Explore current and emerging issues through conversations with sector leaders. This is your space to learn from and participate in the conversation with webinar speakers.

MASTERCLASSES
Acquire a rich understanding of a topic by exploring the latest published research or learnings from in the field experience. Learning from those with subject matter expertise, you'll reflect with others on how to utilise these new insights in your own practice and organisation. You may also like to share your organisation's research and insight by leading a masterclass.

COLLABORATIVE STUDIOS
Bring out systemic challenges to unconventional minds to question the status quo and convention. Through our collaborative studios we expand our network and disrupt our assumptions to drive innovation for social good.

COLLABORATIVE PROJECTS
Use TCP's collaborative project cycle to work through complex environments by identify challenges, undertaking research, building capability, co-creating interventions, collaborating on actions and sharing back with the greater TCP community.

DON'T JUST THINK TANKS
Creating change is often about testing new small ideas, learning and adapting as we go. Don't Just Think Tanks provide the space for organisations to do this and collectively learn from each other on specific issues through a process of problem exploration, ideation and adaption.

WORKSHOPS
Your chance to deep dive into complex issues with others from across sectors. Keeping humans at the centre, we collectively explore insights, and identify gaps and opportunities for both your organisation and across sectors.
